

Ignacio Jiménez Ramírez

Front Developer

Frontend Developer specialized in React, with over 3 years of experience in developing dynamic, responsive, and user-oriented interfaces. I stand out for writing clean, maintainable, and scalable code, applying best practices, and collaborating with multidisciplinary teams.

Work Experience

● Front Developer - ICGrupo

- 2022 - 2024
Development and maintenance of templates for interactive online courses, as well as internal company tools using HTML5, JavaScript, and CSS3.
- 2024 - currently
Development and maintenance of interactive and scalable web applications with React, JavaScript, HTML, and SASS. Implementation of microfrontend-based architectures configured with Webpack, following best development practices and collaborating with design and backend teams.

Highlighted Projects:

- Kreator: collaborative online editor for creating educational content.
- Luna: tool to automate and manage Moodle campuses.
- Component Library: internal library of reusable React components, ensuring consistency and scalability in applications.
